## PREAMBLE

The economic activities using ionising radiation are widely popular due to the benefits to the mankind, availability of sufficient radiation safety standards and value for money. As such, a radiation professional must be responsive on these issues and other radiation related subjects. As one knows the subject matter very well, it is duty bound to place the ionising radiation to the right perspectives. The issues must be properly addressed to strengthen safety confidence among workers and public alike. In this regards, they must keep abreast with the latest development and recent professional practices on ionising radiation both at local and international arena.

In organisation, the task and responsibility of these professionals especially 'Person Responsibility for The License' (OBTL), Radiation Protection Officer (RPO) and Radiation Protection Supervisor (RPS) are not only limited to ensure the safety procedures are observed, but also to improve safety performance in order to increase quality and productivity. Strict adherence to the safety procedures is necessary to avoid any mishap and unwarranted accident that cost an organisation the profit, reputation and assets.

Rapid development in the application of ionising radiation in various sectors demands a comprehensive implementation of legislative requirements in an effort to minimise risk possibly arose from human errors, technical ability and realibility of equipment. Hence, there is a need to strategise and harmonise standards, procedures, training and implementation, so that it will address the real needs of radiation issues that lead to the development of safety culture in an organisation.

Based on recommendation from participants of previous Conferences, the same format will be retained for this year's event, taking into account the wide spectrum of participants: OBTL, RPO, RPS, and other related professionals.

This Radiation Protection Conference and Workshop is a good platform for radiation professionals, OBTLs, RPOs, members of relevant authorities, associated professionals and other key personnel to meet, discuss, sharing thoughts and experience, and establish better networking to enhance safety performance as well as their professionalism.

## CONFERENCE OBJECTIVES

- To disseminate information on the latest development, strategies and future direction for proper radiation safety practices
- To overview the current radiation practices at workplace as to conform to the safety standard and procedures
- To keep abreast on the development of ionising radiation activities such as R&D, education and training, procedures, licensing and regulation
- To provide networking opportunity, sharing thoughts and experience with other professional colleagues towards the betterment of RPO professionalism
- As a platform where radiation professionals, managers, trainers, academicians and those from regulatory and relevant authorities meet together to stimulate useful business link

## LICENSE RENEWAL

Local Participants who attended full Conference and Workshop (07-09 June 2011) are eligible to apply for license renewal.

## DATELINE

Closing date for booking is 24 June 2011. Early registration is encouraged. The confirmation of place will be made on 'first-come-first-served' basis.

Walk-in participants with payment will also be admitted on space available basis.

**WHO SHOULD ATTEND**

- radiation licensee
- person responsible to the license (OBTL)
  - radiation protection officer
  - radiation protection supervisor
  - supervisor • manager • researcher
  - training provider • lecturer • scientist
  - trainer • academician • safety officer
- HSE (health safety and environment) officer
  - medical physicist • physician
- laboratory manager and those who are interested in radiation protection and safety

The event is also open to the general public

## THE AGENDA

Day 1, <b>7 June 2011</b>	Conference Session Official Opening	09:00 - 17:00
Day 2, <b>8 June 2011</b>	Workshop Session Issues <ul style="list-style-type: none"> <li>• Nuclear Management &amp; Direction</li> <li>• Safety, Security &amp; Safeguard</li> </ul>	08:30 - 17:30
Day 3, <b>9 June 2011</b>	Post Session Safety Agenda: What's Next?	09:00 - 12:30
Day 4, <b>10 June 2011</b>	Technical Visit	09:00 - 14:00

## FEE PER PAX

### Without Accommodation

PACKAGE		MARPA MEMBER / TEAM DISCOUNT	OTHERS
<b>A</b>	Conference only (07 June 2011)	RM 900	RM 950
<b>B</b>	Conference & Workshop (07-09 June 2011)	RM 1050	RM 1100

### With Accommodation

PACKAGE	RECOMMENDED HOTEL						
	Meritus Pelangi Beach Resort & Spa <i>Cenang Beach</i>		Bayview Hotel <i>Kuah Town</i>		Aseania Resorts <i>Tengah Beach</i>

## PAPER PRESENTATION

A total of 12 papers are scheduled to be presented at the Conference. There will be 3 keynotes address and 9 papers delivered by notable international and local speakers covering the following aspects:

- Safety management
- Quality and productivity
- Safety culture and environment
- Radiation safety monitoring and control
- Legislation, procedures and practices
- Education and training
- Performance of equipment
- Human capital
- Recent professional practices
- Safety and security
- Nuclear renaissance

## LANGKAWI DIALOGUE

There will be a discourse and interactive round table discussion after the Conference where the participants will be teamed into several groups to discuss issues of interest adopting smart partnership approach, followed by group presentations of resolution and subsequently the conclusion remarks by the Chairman.
